Subject: Rosenfeld Development.

Chairman Chaplin,

I am writing to indicate my support for the project being considered at the Rosenfeld Concrete site. I think the tax revenue generated for the town would be of great benefit to the majority of the residents. My children have both gone through Hopedale schools and it was always a disappointment to see that the schools seemed to lose funding for a number of very valuable programs as a result of a lack of revenue. The impact of the additional traffic in the area would be minimal as there is a direct avenue out of the town via Plain Street.

There is no argument that this town needs additional tax revenue to support the needs of the town. The citizens are a finite resource. The only way to get more taxes without arbitrarily raising each residents portion is to bring in businesses to tax. I think this plan is a great one to achieve that goal.

Kind Regards,

Mark S Andolina
