

## Just tested positive for COVID-19? Have mild to moderate symptoms?

There are new treatments that may  
be right for you.

If you test positive for COVID-19, talk to your doctor **right away** about these options:

### 2 oral (by mouth) pills (Paxlovid & Molnupiravir)

### Monoclonal antibody infusion

These treatments are safe, effective, and free. No insurance needed.

If you test positive for COVID-19:

- » Talk to your doctor or healthcare provider **right away**. They will help decide what type of treatment is right for you. A prescription is required for all COVID-19 treatments.
- » You can also call Gothams self-referral line at (508) 213-1380. Gothams hosts several state-sponsored sites that administer monoclonal antibody infusions and dispense COVID-19 oral antiviral pills. A Gothams healthcare professional can help determine if you are eligible for COVID-19 treatment.
