Re: Provisional Full-Time Appointment

Madam Chair,

With the upcoming departure of a Career Firefighter/Paramedic, to alleviate one of two current vacancies to ease the burden of the current career staffing having to cover open shifts, I am recommending that the Board appoint Call Firefighter/EMT Timothy Morse, of Hopedale, to the position of Provisional Full-Time Firefighter/EMT effective November 15<sup>th</sup>, 2023. Mr. Morse is a Hopedale resident, has been on our call department for almost 2 years and has 10 plus years of firefighting experience from being a volunteer with fire departments in Maine and New York. In his short time here in Hopedale Mr. Morse has earned his EMT certification and has become qualified to operate our apparatus and has already been filling in to cover open Full-Time shifts. Mr. Morse is also currently enrolled in school to obtain his Paramedic certification. If appointed, Mr. Morse will be required to complete a 1-year probationary period, pass a pre-hire psychological evaluation examination and physical examination, and complete a 1 year probationary. Mr. Morse would be entitled to all the same benefits as a regular Career Full-Time Firefighter and be covered by the collective bargaining agreement.

Respectfully,

Thomas Daige  
Fire Chief

# Town Of Hopedale

## DRAFT

### Procedures for disposal of surplus supplies valued at less than \$10,000

As required by MGL Chapter 30B, local jurisdictions must have written procedures for disposal of surplus supplies valued at less than \$10,000, including motor vehicles, machinery, computer equipment, furniture, and other materials and supplies.

Any Hopedale Town Department that wishes to dispose of a surplus item with a resale or salvage value of less than \$10,000.00 must comply with the following requirements:

- Identify items the department needs to dispose of
- Identify the resale or salvage value of each item
- Have the list reviewed and approved by the Department Head
- Approval of the Select Board or School Committee, as applicable, is required before disposition of any single item valued over \$2,500
- Surplus supplies must first be offered to all other municipal departments (both General Government and School Department). This can be done via email to departments heads advising them they have 2 weeks to respond.
- Remaining surplus supplies can be offered to Town/School employees through an informal "word-of-mouth" or other notification, giving priority to members of the department in which the disposable items are housed. Employees must purchase the surplus item at the previously-identified resale value. The department head disposing of the surplus supplies may determine how long to make the items available to employees as well as the manner in which preference will be given when more than one interested party wants to purchase a surplus item.
- A list of all remaining items and their value will be sent to the Town Administrator or School Superintendent, as applicable, who will determine final disposition which may include:
  - Offering higher-valued items to the community via the Town website or other advertising method
  - Properly disposing/recycling of the items
  - Other, to be determined by the Town Administrator or School Superintendent
